

## (Stay Together Appalachian Youth!) Steering Committee Nomination Form

The STAY (Stay Together Appalachian Youth) Project is a diverse regional network of young people working together to create, advocate for, and participate in safe, sustainable, engaging and inclusive communities throughout Appalachia and beyond. The STAY Project focuses regionally on Central Appalachia and on youth-led initiatives to build skills, develop networks, and empower youth in Appalachia, especially youth of color, LGBTQ youth, and youth from low-income backgrounds through a diverse array of workshops at annual gatherings. Additionally, we partner with other organizations to connect STAY members with leadership opportunities, and host events and conversations throughout the year.

The STAY Project seeks to reflect its membership in its selection of steering committee members. The Steering Committee is responsible for the general decision making, financial health, and supporting the work of STAY throughout the year. One of the responsibilities of The STAY Project is to support and guide the work of the STAY Coordinator.

If you or someone you know is interested in applying for STAY's 2017-2018 Steering Committee, please take a moment to answer the following questions. **We especially encourage youth of color, LGBTQ youth, and youth under 18 to apply.** Go ahead and share this opportunity with other youth age 14-30 from Central Appalachia!
